Future Learning INSTITUTE

Finder Program launch and CLC TWO Open House

Tuesday 10 November 2026 · Freetown Polytechnic, Jui Campus

THE FOCUS OF THE DAY

The Finder Program is about three things:

1 Youth employment

The program prepares young adults to make a living as micro-consultants in their own communities.

2 High tech

Learners build core AI skills over about a year of courses, at a Community Learning Center and on their own phones.

3 Community impact

A Finder helps local leaders, business owners, farmers, teachers and others find better ways to do their work and put them into practice.

For young people: **Learn AI. Earn money. Help others.**
